

The Future of Your School is Here.

The Edubull Proposal
for Complete School
Transformation.

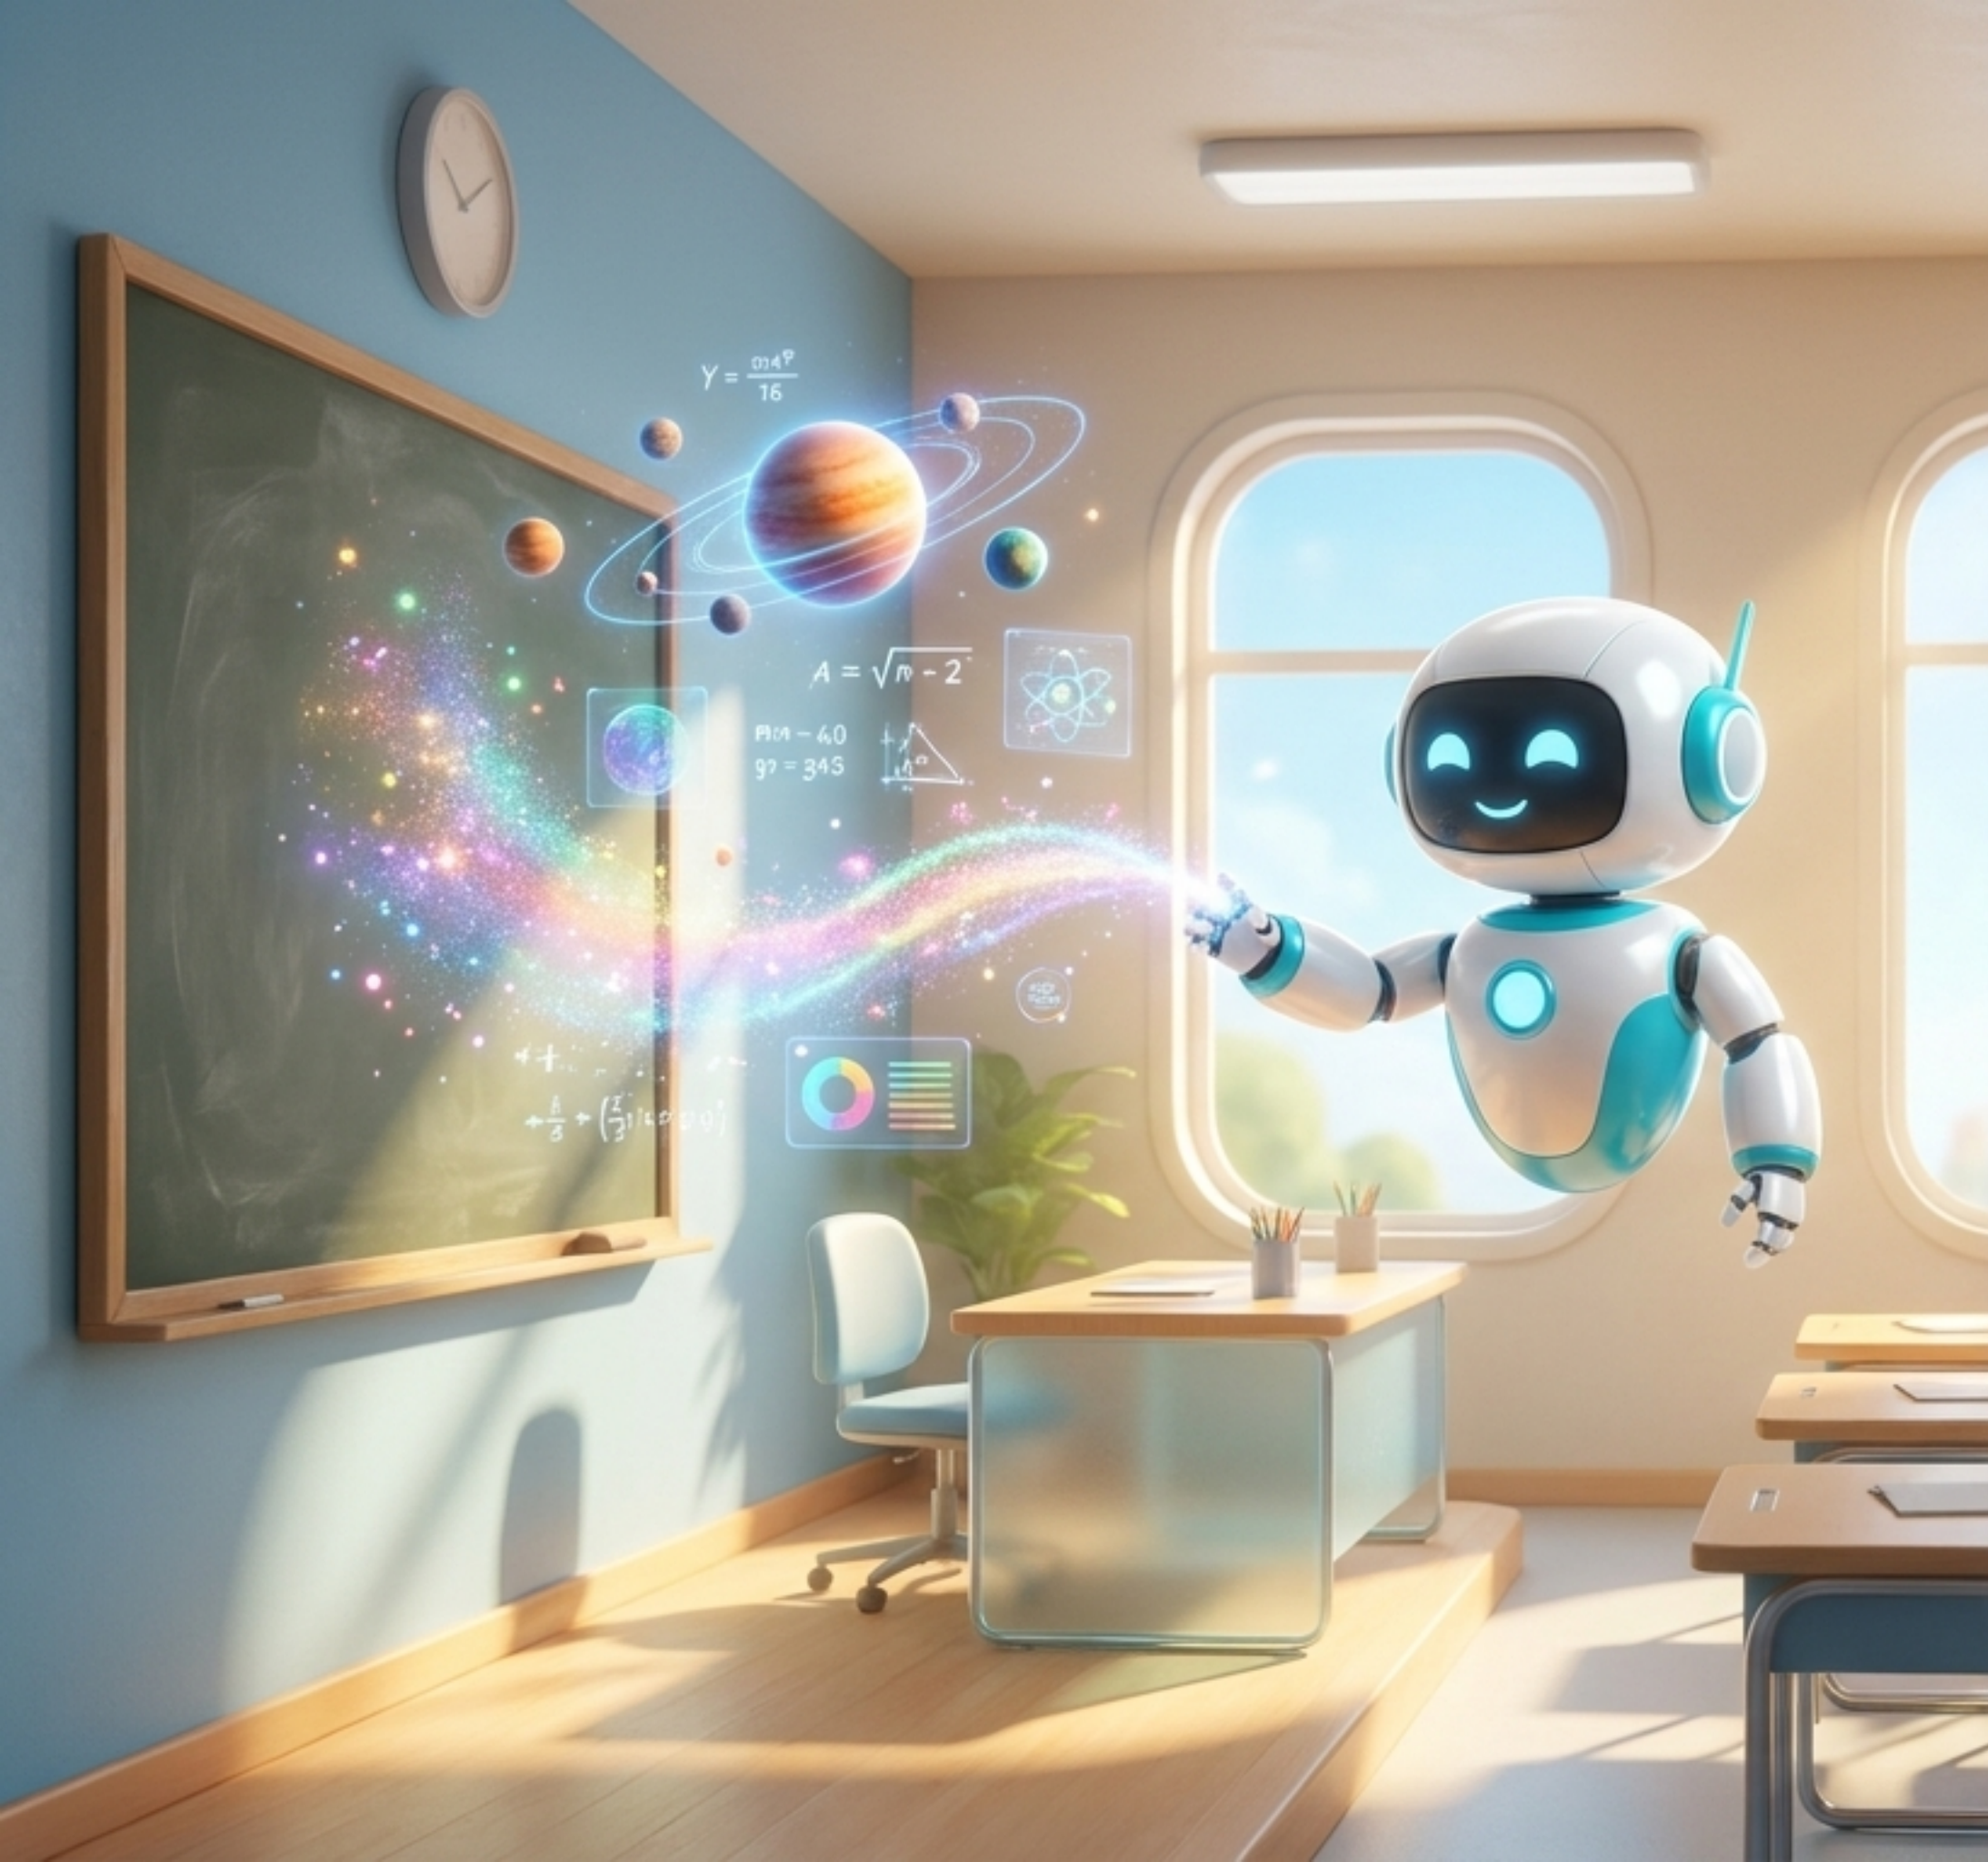

Transform today, or play catch-up tomorrow.

The school that transforms today
becomes the leader of tomorrow.
The school that waits will always be
playing catch-up.

The question is not whether to go AI —
it is whether you want to be first or last.

We deliver complete AI school transformations.

Edubull Technologies Pvt. Ltd. is India's First AI School Infrastructure Company.

We are not a textbook company.

We are not an ed-tech app.

We are not a smart board vendor.

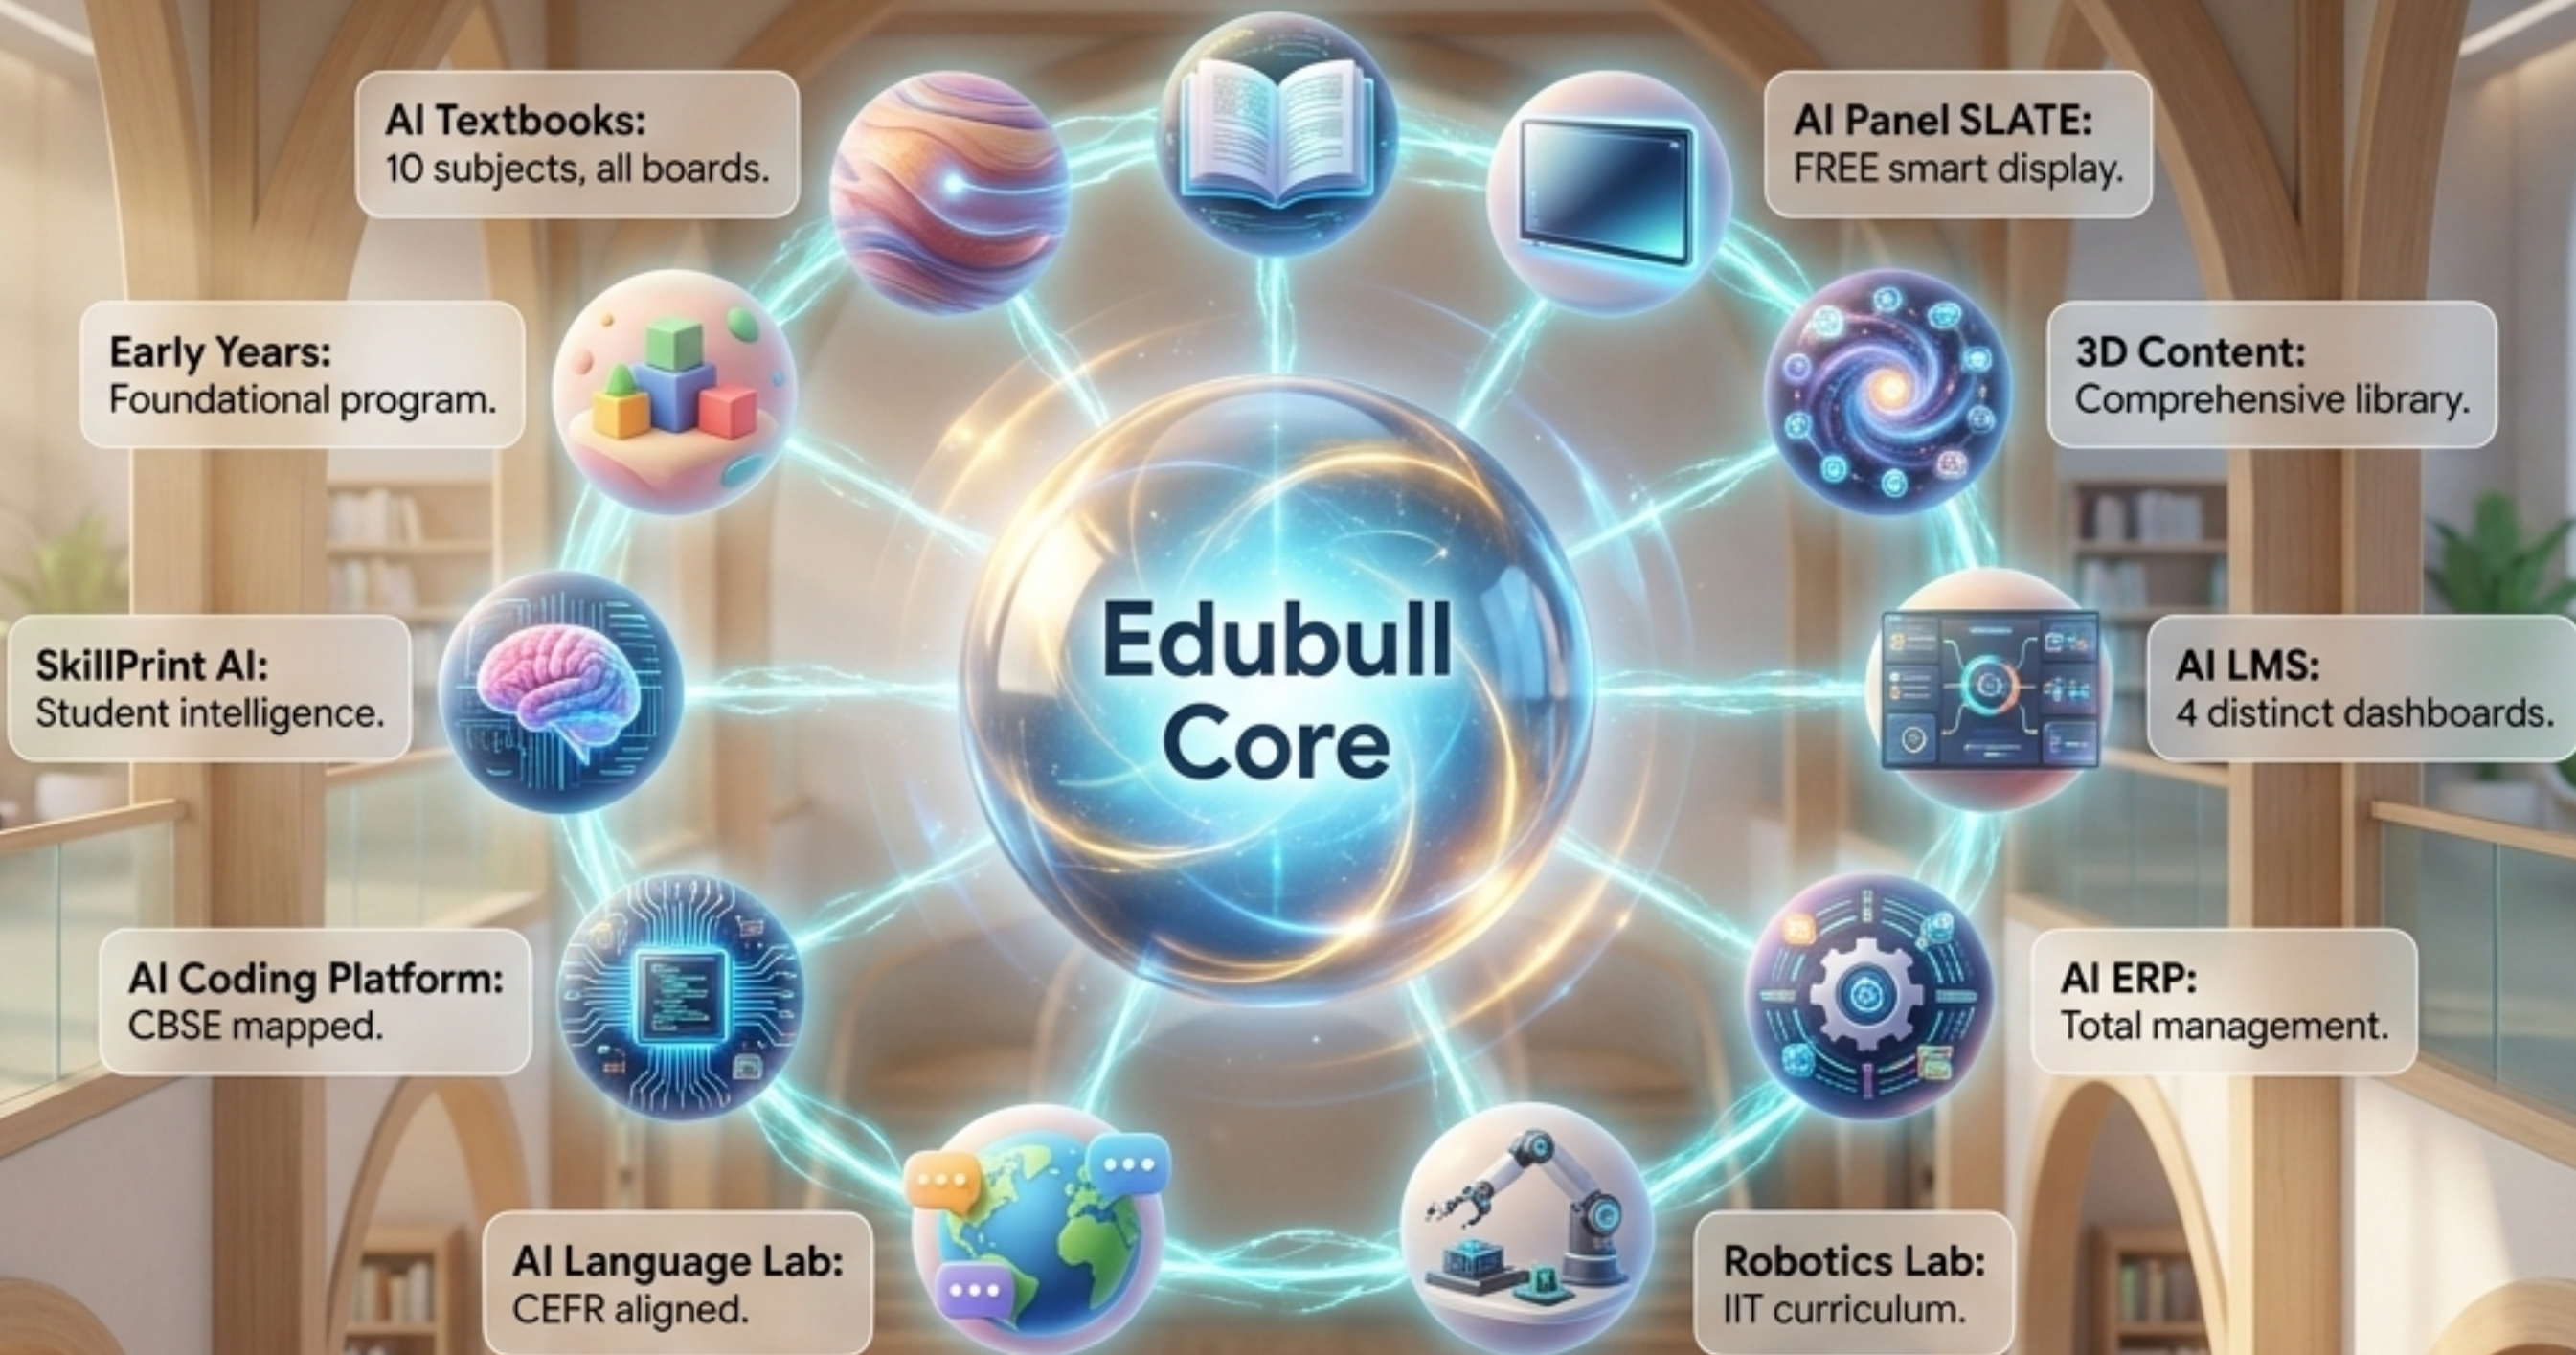

Everything you need. From one partner. At zero cost.

Edubull promises to Invest in Your School.
Everything described in this guide is delivered in
one unified package without any upfront investment.

A single, unified, AI-powered ecosystem.

The AI classroom of tomorrow, running today.

The magic wand is free; you only pay for the magic.

We replace your school's entire traditional system—textbooks, boards, labs, management, and content. The school invests nothing. Everything is included.

The foundations of our partnership.

School

Zero CapEx

The school invests absolutely nothing.

IIT Guwahati Partner

Academic credibility no competitor can match.

Complete Ecosystem

One partner replaces 5-7 separate vendors.

92% Renewal Rate

Schools that adopt Edubull don't go back.

2-Year Locked Model

A predictable, committed partnership.

On-Site Support

We don't just install. We train, support, and stay.

Direct China Sourcing

40-60% hardware cost advantage passed to you.

Choose the right magical arsenal for your students
